Dear Harold:

Here is the information you requested. I hope it provides what you are looking for.

Incidentally, please tell me sometime if you see any significance in this chronology: The CIA documents on King were released to you on October 6, 1978. The House Assassinations Committee cleared the CIA (and the FBI) of any complicity in the King (and Kennedy) assassinations in July of 1979.

Is it possible that portions (or all) of these CIA documents were deliberately ignored by the committee in its investigation?

Hope you and Lil weathered the late-winter snowstorm. We had 2 inches here!

Best regards,

Jeff
